Continuum. Hardcover. Condition: New. 304 pages. Dimensions: 10.2in. x 7.8in. x 0.6in. Neurology has a reputation among students and doctors as a difficult area in terms of understanding and comprehension. Despite the importance of the subject in training and practice, clinicians, students and GPs are often intimidated by its apparent complexity. A Colour Atlas of Clinical Neurology is designed to offer an accessible educational account of the subject through the medium of brief, stimulating text and a collection of clinical photographs, basic anatomy charts, ECG printouts and test results. Organized by neurological problem, this diagnostic atlas has broad coverage ranging from cortical disorders, strokes, tumours, blackouts and paraplegia to peripheral nerve and muscle diseases. Line drawings enhance the clarifying illustrations and emphasize the role of a basic understanding of clinical anatomy in neurological practice. This item ships from multiple locations. Your book may arrive from Roseburg,OR, La Vergne,TN. Hardcover.
