ALGORITHMS TO ENHANCE MACHINE OLFACTION PERFORMANCE:

Condition: New. Publisher/Verlag: VDM Verlag Dr. Müller | Application Approach | The field of artificial olfaction, electronic noses (e-noses), has been steadily developed over the last three decades in a wide range of applications e.g., medical diagnostics, environmental control, quality assessment of food and beverage products. Many new technologies involved in this field have been developed by a number of researchers and commercial organizations around the world. Still, many researchers have spent a great deal of effort improving e-nose performance...
